

MAISON  
ARTANER  
— PARIS —

## *Maintenance advice*

*Your jewellery has been crafted with the exceptional  
savoir-faire of French artisanship.*

*Our Master-Jeweller has taken great care in creating pieces  
that will be with you all day, every day.*

*We suggest that you carry out the following care instructions  
to eliminate traces and loosen accumulated dust and dirt.*

*Soak your jewellery for a few hours in a bowl filled with warm water  
and a few drops of mild soap (such as Savon de Marseille or dishwashing detergent).  
Then, gently rub inside and outside surfaces.  
Rinse in lukewarm water and air dry.*

*All our stones are natural and have been chosen with great care.  
Store each piece separately to avoid friction and scratches.*
